I. OPERATOR MANAGEMENT

- Resolution of a bug related to creation of cities not yet in the system. This prevented to create operators as their city could not be created.
- Possibility to create a private person as operator is for the moment hidden and will be back after some fixes occur
- Resolution of a bug preventing BCP or CCA to modify the address or status of an operator. The responsible authority of the operator can make modifications and they are now correctly saved.
- Resolution of a bug preventing to create operators in some countries because of no geographic data

II. CHEDPP

- Resolution of a bug related to printing of certificates with status “In progress” and “Documentary check” left empty.
- When an authority (BCP or CCA) creates entirely a CHEDPP, box 1.33 “Declaration” is now left empty. Previously identification of the authority was put there aside the responsible for the load statement which was not correct.

III. COI

- PDF box 21 is now unlocked

IV. TECHNICAL

- Resolution of a bug where a deleted city postal code remained in index after save
- Update of the link to “How to create an EU login account” documentation
- Operator screen working with minification On
- OSM Map not displayed when Map settings disabled

TRAde Control and Expert System - New Technologies (TRACES)

TRACES-NT is a multilingual online management tool which notifies, certifies and monitors trade in animals, products of animal origin, feed and food of non-animal origin, plants, seeds, propagating material, goods of organic origin and woods.

TRACES-NT is an e-government system, following the requirements of the EU Digital Agenda towards dematerialisation of health documents.
