Release Note - V.5.8.11

July 2021

Contents

Operator management - Introduction of new sections of Approved or Registered Animal Transporters under the veterinary chapter	
Operator management - Introduction of new Sections "ABP transporter" and "ABP trader" under the Animal By Products Chapter	-
All document types - New copy functionality for commodity descriptor rows applicable to all modules	
PHYTO - PDF layout adaption	. 5

Operator management - Introduction of new sections of Approved or Registered Animal Transporters under the veterinary chapter

Version 5.8.11 of TRACES NT enables the creation of approved or registered Animal Transporters under the new transporters' sections of the veterinary chapter:

- Registered Transporter (Registered transporters (under AH rules) to which AW rules do not apply);
- Transporter Type I (Type I authorised transporters to which AW rules do apply);
- Transporter Type II (Type II authorised transporters to which AW rules do apply).

When creating a new transporter the new sections can be selected by following the steps indicated below:

Create New	Operator		+ Add activity section 🖨 Create
Operator Details		Addresses	+ Add address
Name	tranporter	0	
Country	France (FR)	Region	
Phone 🗸	 +32 21 12 10 01 ★ 	City	Q Please provide city name, postal code
		City	Prease provide city frame, postar code
Operator Identifiers	Add Identifier	Address	
	No identifiers	Coordinates	Latitude • / Longitude •
Select Section		~)	
	No operator activities.		Remarks N/A

The new transporters' sections can be found under the Veterinary chapter:

Ovine/caprine Holding; (OVHOLD) Percine Holding; (PORCHOLD) Poulty establishments for slaughter (POU-SLA) Poulty establishments hatching eggs (POU-HAT) Registered transporters (REC-TRANS) Semen collection centres (SEM-COL) TPA (TRA) (Type II authorised transporters (REC-TRANS-AUTH-I) Type II authorised transporters (REC-TRANS-AUTH-I) Type II authorised transporters (REC-TRANS-AUTH-I) Type II authorised transporters (REC-TRANS-AUTH-II) Type II authorised transporters (REC-TRANS-AUTH-II) Type II authorised transporters (REC-TRANS-AUTH-II) Type II authorised transporters (REC-TRANS-AUTH-II) Type II authorised transporters (REC-TRANS-AUTH-II) Processed apricultural products for use as feed (E) Processed agricultural products for use as food (D)	e provide city name, postal code
Unprocessed plant products (A) Select Section	·
No operator activities.	Remarks N/A

Operator management - Introduction of new Sections "ABP transporter" and "ABP trader" under the Animal By-Products Chapter

The sections ABP-Transporter and ABP-Trader have been added under the Animal By-products chapter:

Select Section		
Select Section		
Animal By-Products (EETA_European Union) (en) (CLASSIFICATION_SECTION) ANIMAL_BYPRODUCTS_TRADER (ABP-TRADER)	Remarks	
[en] (CLASSIFICATION_SECTION) ANIMAL_BYPRODUCTS_TRANSPORTER (ABP-TRANSPORTER)	Remarks	
biogas piants (Abi -biolor)	N/A	
Collection centres (ABP-COL) Composting plants (ABP-COMP)		
Establishments or plants carrying out intermediate activities and plants storing animal by-products (ABP-INTP)		
Establishments or plants for the storage of derived products (ABP-STORP)		
Establishments or plants handling animal by-products or derived products for purposes outside the feed chain (ABP-TECHP) Establishments or plants manufacturing organic fertilisers or soil improvers (ABP-FERT)		
Incineration/ co-incineration/ combustion plants (ABP-INCP)		
Oleo-chemical plants (ABP-OLCP)		
Other registered operators (ABP-OTH)	ient Credits Contact Top Page	
Petfood plants (ABP-PET)		
Processing plants (ABP-PROCP) Registered users of animal by-products and derived product for specific purposes (ABP-SPU)		
Veterinary (EFTA, European Union)		
Animal act (ACT)		
Animal shelters (DCF-SHEL)	*	

For detailed information with regards to the creation and management of approved or registered operators by the EU LMS National Contact Point users, please refer to the "INTRA Preparedness v.2.0" manual.

All document types - New copy functionality for commodity descriptor rows applicable to all modules

In version 5.8.11 of TRACES NT, a new function has been enabled which applies to all modules.

The new copy functionality appears in the box where the description of the consignment has to be filled in (the number of the box can vary according to the type of document/certificate):

			+ Add com	modities 🖌 Modi	ly commodities				
	BLES AND CERTAI toes, fresh or chill	IN ROOTS AND TUBERS				Subtotal n	Remove Subtotal qui sumber of pack Subtotal net w	antity: (ages: 30	Add row - O Units. OO packages. 3000 kg.
							Subtotal net vo		150 L.
Default weight uni		Default volume	e unit	~	Default quantity unit		Subtotal net vo		150 L.
Default weight unit	~	Default volume) unit:	~	Default quantity unit	•	Subtotal net vo	olume:	150 L.
-	EPPO Code *	Default volume Product type *		vwight *	Default quantity unit	•	Subtotal net vo	aume: ault package type:	150 L.
-			Net		Package count *	Country of Origin	Subtotal net vo	ault package type: * Hide optional c	150 L.
ef) Commodity *		Product type *	Net	weight *	Package count *	Country of Origin	Subtotal net vo Def	ault package type: * Hide optional c	150 L.

The new functionality allows to copy a commodity row, that has already been inserted and filled in, to a new commodity row with the same information.

To do so, a new button has been placed to the right part of the commodity row (highlighted in yellow in the following screenshot):

#1	Commodity *	EPPO Code *		Product type *		Net weight *		Package count *	r	Country of Origin *	Region of Origin		-
	0702 00 00		Q	Others	~	3000	kg 🕶	300	Box 🕶	Moroc 🗸 🕂		~	
		X LYPES Solarum hycopersicum								æ			
		Quantity		Net volume		Packaging materia	al	Sanitary Region	of Origin	Establishment of Origin	Batch number		
			Unit 🗸	150	LŦ			C	2	Q Select 🔹 🛨		+	

Once you click on that button, a new line with the exact same information (such as Country of Origin, Product type, etc.), will be created under the existing one:

Commodity *	EPPO Code *	Product type *	Net weight *	Package count *	Country of Origin *	Region of Origin	I

PHYTO - PDF layout adaption

The PDF layout of the phytosanitary certificates has been modified in accordance with the model set out in the Plant Health Law (Regulation (EU) 2016/2031) whilst ensuring closer alignment with the IPPC model.

The modifications are as follows:

- The EU logo now appears in box 5 of the PDF of phytosanitary certificates when the issuing NPPO country is in the EU (PHYTO for export).
- The vertical box "Certificate" has been removed.
- The country of origin has been removed from the top of the phytosanitary certificates.
- The boxes 5, 6 and 7 have been switched so that they are closer aligned to the IPPC model.

Example of the old version of the PHYTO PDF layout:
