Part I: Description of consignment

Empty area for description of consignment.

Part II: Certification	II. Health information			
	II.1. Animal health attestation			
	I, the undersigned official veterinarian, hereby certify that the poultry intended for slaughter (1) described in Part I:			
	II.1.1	have been continuously resident in the establishment of origin since hatching or for at least 21 days prior to the date of departure of the consignment;		
	II.1.2.	(2)	either	○ [come from an establishment or a zone not subject to movement restrictions affecting avian species and established for reasons of diseases listed for those species or diseases subject to emergency measures relevant for those species, and have not been in contact with poultry of a lower health status for an adequate period;]
		(2)	or	○ [come from an establishment, or a zone subject to movement restrictions affecting avian species and established for (3), but derogations from movement restrictions have been granted, and,;
		(2)	<input type="checkbox"/>	[they comply with the requirements set out in (4);]
		(2)	<input type="checkbox"/>	[and in particular, they are (5).]
	II.1.3.	come, to the best of my knowledge, and as declared by the operator, from an establishment where there were no abnormal mortalities with an undetermined cause;		
	II.1.4.	(2) (6)	○ [have not been vaccinated against infection with Newcastle disease virus;]	
	(2) (6) or	○ [have been vaccinated against infection with Newcastle disease virus with <input type="checkbox"/> [inactivated vaccines] (2) <input type="checkbox"/> [live attenuated vaccines that comply with the criteria of Annex VI to Commission Delegated Regulation (EU) 2020/688] (2)		
		(name of strain used in the vaccine)		
		on	(date) at the age of weeks;]	
(2)(7)	○ or	[are intended for a Member State or zone thereof which has been granted the status free from infection with Newcastle disease virus without vaccination, and they come from flocks which:		
	(2)	○ either	[are not vaccinated against infection with Newcastle disease virus and have tested negative, during the last 14 days prior to the date of departure of the consignment, in serological tests to detect antibodies against Newcastle disease virus performed on blood samples at a level which gives 95 % confidence of detecting infection at 5 % prevalence;]	
	(2)	○ or	[are vaccinated against infection with Newcastle disease virus and have tested negative, during the last 14 days prior to the date of departure of the consignment, in a test to detect the presence of Newcastle disease virus, performed at a level which gives 95 % confidence of detecting infection at 5 % prevalence;]	
II.1.5.	have been subjected to a clinical inspection together with their flock of origin within the last 5 days prior to the date of departure of the consignment and showed no clinical signs or suspicion of listed diseases relevant for the species;			
II.1.6.	will be transported in means of transport and in containers that comply respectively with Articles 4 and 5 of Delegated Regulation (EU) 2020/688;			
(8) <input type="checkbox"/>	II.1.7.	since the date of departure from their establishments of origin and prior to the date of arrival to this establishment approved for assembly operations, have not undergone more than two assembly operations, and:		
(2)	○ either	[they come from their establishments of origin.]]		
(2)	○ or	[at least one of the animals of the consignment has undergone one assembly operation in an approved establishment.]]		

Part II: Certification	II. Health information				
	(2)	○ or	[at least one of the animals of the consignment has undergone two assembly operations in the approved establishments.]]		
	II.2. Public health attestation				
	(9) <input type="checkbox"/>		[II.2.1. The Salmonella control programme referred to in Article 5 of Regulation (EC) No 2160/2003 of the European Parliament and of the Council and the specific requirements for the use of antimicrobials and vaccines in Commission Regulation (EC) No 1177/2006, have been applied to the flock of origin and this flock has been tested for Salmonella serotypes of public health significance:		
	Identificat ion of the flock	Age of the birds	Date of last sampling of the flock from which the testing result is known [dd/mm/y yy]	Result of all testing in the flock(10)	
				positive	negative
				For reasons other than the Salmonella control programme:	
		(2)	○ either	[antimicrobials were not administered to the slaughter poultry.]	
		(2)(11)	○ or	[the following antimicrobials were administered to the slaughter poultry: .]]	
		(12) <input type="checkbox"/>		[II.2.2. If the Member State of destination is Finland or Sweden, the poultry underwent a microbiological test by sampling on the holding of origin and tested Salmonella negative in accordance with the procedures in Council Decision 95/410/EC pursuant to Article 9(3) of Regulation (EC) No 2160/2003.]	
Notes:					
This animal health/official certificate is valid for 10 days from the date of issuing. In the case of transport by waterway/sea of animals, the period of validity of the animal health/official certificate may be extended by the duration of the journey by waterway/sea.					
In accordance with the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community, and in particular Article 5(4) of the Protocol on Ireland/Northern Ireland in conjunction with Annex 2 to that Protocol, references to the Union in this animal health/official certificate include the United Kingdom in respect of Northern Ireland.					
This animal health/official certificate shall be completed in accordance with the notes for the completion of certificates provided for in Chapter 2 of Annex I to Commission Implementing Regulation (EU) 2020/2235.					
Part I:					

Part II: Certification	II. Health information		
	<p>Box reference I.17: In case the animals are dispatched from an establishment approved for assembly operations in the Member State of origin, the reference number(s) of the official document(s), based on which the animal health/official certificate for this consignment is issued in this establishment approved for assembly operations, may be indicated. In case the animals are dispatched from an establishment approved for assembly operations in the Member State of passage, the reference number(s) of the certificate(s), based on which the animal health/official certificate for this consignment is issued in this establishment approved for assembly operations, shall be indicated.</p> <p>Box reference I.30: Description of consignment:</p> <p>“CN code”: Indicate the appropriate Harmonised System (HS) code(s) of the World Customs Organisation under the following headings: 01.05 or 01.06.39.</p> <p>Part II:</p> <ol style="list-style-type: none"> (1) "Poultry intended for slaughter" means poultry to be transported either directly or after undergoing an assembly operation, to a slaughterhouse, as defined in Article 3, point (8), of Delegated Regulation (EU) 2020/688. (2) Delete if not applicable. (3) Insert the name of the disease(s). (4) Insert the specific reference to the article(s), title, and number of the relevant legal act(s) adopted by the Commission providing for those requirements. (5) Insert the specific attestation(s) provided for in and required by the relevant legal act(s) adopted by the Commission, as referred to in Article 126(1), points (b)(ii) and (iii), of Regulation (EU) 2016/429 of the European Parliament and of the Council. (6) Delete when the consignment is dispatched from a Member State or zone thereof which does not have the status “free from infection with Newcastle disease virus without vaccination” to a Member State or zone thereof which has been granted such status. (7) This guarantee is required for consignments dispatched from a Member State or zone thereof which does not have the status “free from infection with Newcastle disease virus without vaccination” to a Member State or zone thereof which has been granted such status. Delete reference if not applicable to the consignment. (8) Applicable in case the consignment is dispatched from an establishment approved for assembly operations. The animal in the consignment which has undergone the highest number of assembly operation determines the number of remaining allowed assembly operations for this consignment. Delete reference if not applicable to the consignment. (9) This guarantee applies only to poultry belonging to the species of Gallus gallus and turkeys. (10) If any of the results were positive for the following serotypes during the life of the flock, indicate as positive: Salmonella Enteritidis and S. Typhimurium. (11) Complete if appropriate: indicate the name and active substance of antimicrobials used.
